

## Co-operate with neighbours to stop water seepage

**Male owner downstairs:** When we found water seeping through our bathroom ceiling we asked the management office for help to liaise with the owner upstairs for a solution  
As neighbours, we should communicate with one another

**Super:** Upstairs Neighbours

**Female owner upstairs:** I hired a contractor referred by the management office to check the source of the seepage

**Male owner upstairs:** After all, the maintenance contractor has experience  
He stopped the seepage quickly

**Female owner upstairs:** It's the owners' responsibility to maintain their building

**Male owner downstairs:** The water seepage stopped after the repairs  
With proper building maintenance  
we can enjoy a more pleasant living environment

**Female owner upstairs:** This is a win-win situation

**Super:** Co-operate with neighbours to stop water seepage
